

Jass Performance Spark Plug Cover Manual

Installation of the Spark Plug cover

The set consists of:

- Spark Plug Bi-Layer Cover
- X2 Mounting Brackets
- X2 Allen Head Bolts
- X2 Washers

The Spark Plug Cover comes with preinstalled mounting brackets and bolts.

Installation steps:

1. Remove the front and the middle bolts of the engine cover.
2. Place the M6 washers
3. Place on top of them the Spark Plug Cover with the preinstalled mounting brackets.
4. Tighten the Allen Head bolts.

Now take a break and enjoy the new vision of your roadster.

With regards, Jass Performance!
